

# **SAFETY & SECURITY**

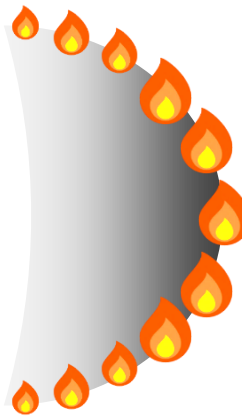

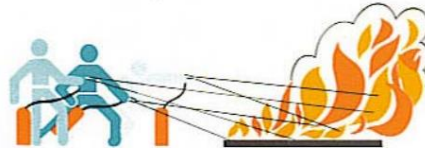

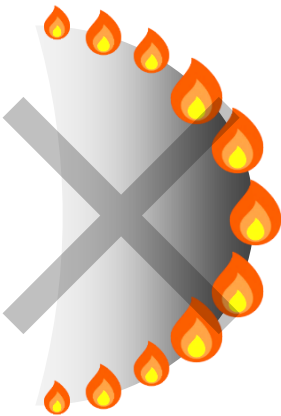

Always extinguish the flames with the direction of the air and not the opposite.

Keep a safe distance from fire.

Also start extinguishing from the sides and not from the middle.

**TEAMWORK**

Extinguishing must be from the bottom of the flames and not the top.  
Teamwork is the key in firefighting.  
The groups have to be well organized.

**TEAMWORK**

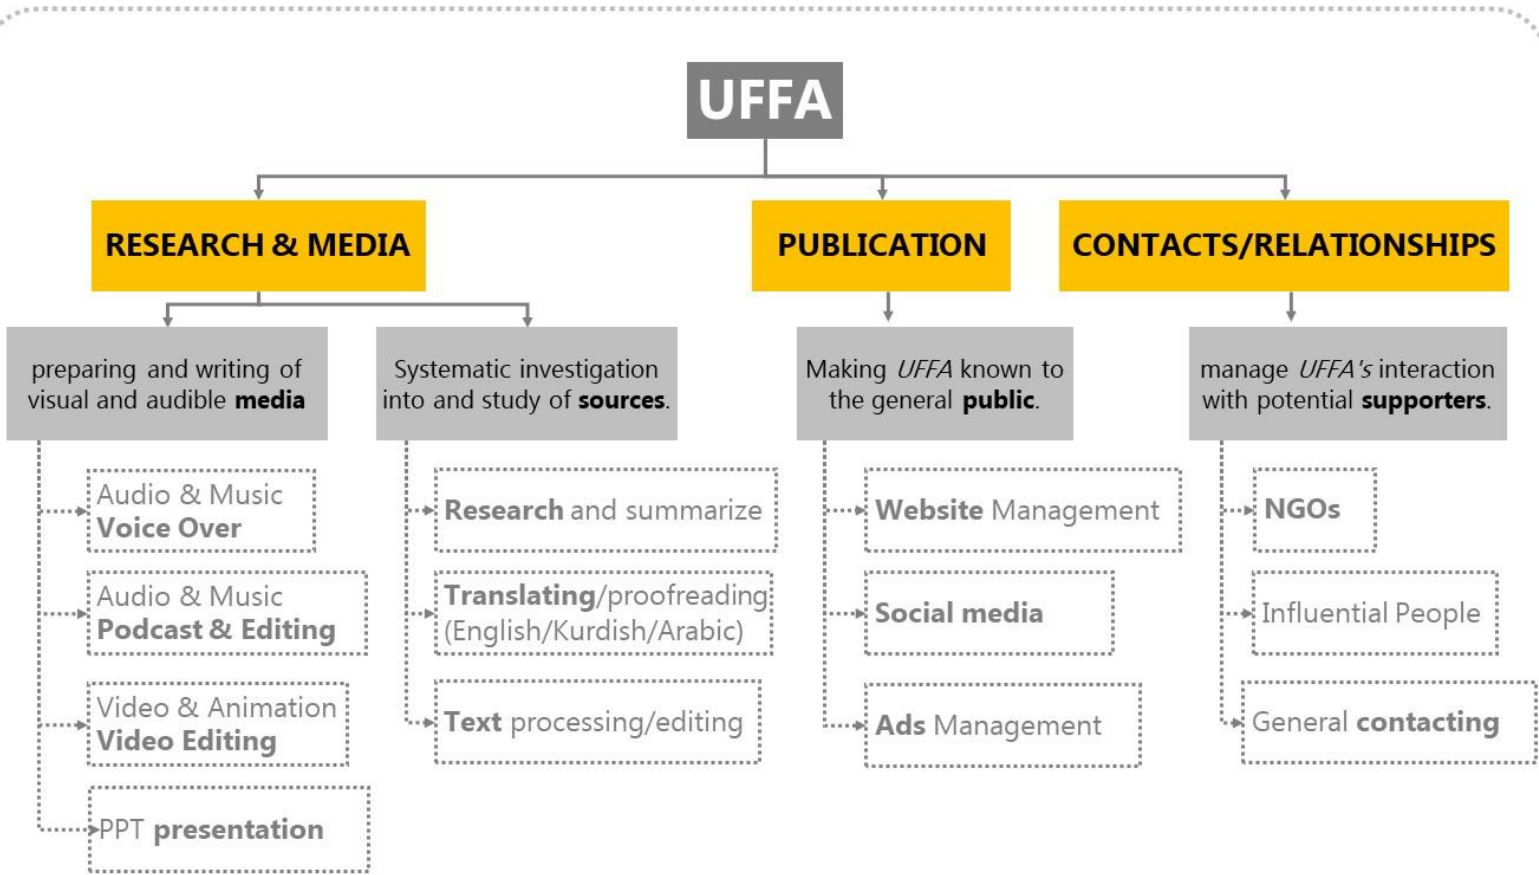

**PROTECTION**

Firefighting is extremely dangerous! Firefighters wear a range of protective equipment to help protect them during their work. Each item either protects their body or helps to perform their duties.

## Be Safe! **PROTECTION**

Turn Out Jacket and pants  
Firefighting gloves, Fire Helmet, Face Mask  
Firefighting hood, Belts, Firefighting Boots  
And many other equipment
